

# MINING GIVES BACK

## JUNEAU SCHOOLS ENDOWMENT

*In late 2024 Coeur Alaska created an endowment fund to provide long-term sustainable support to Juneau's school district and students. Coeur Alaska continues to contribute to the fund, and the fund will support extracurricular programs for the district's K-12 students including school-sponsored sports teams, clubs, groups, activities, and special projects.*

*Coeur Alaska's Kensington Mine is an underground, hard rock gold mine located in the Berners Bay Mining District, which has had over 100 years of resource development.*

*The mine has a small footprint of approximately 240 acres and is accessed via water with the 45-mile commute along Lynn Canal.*

*Coeur Alaska employs approximately 400 people and is the second-largest employer in the City and Borough of Juneau.*

*The mine has been a part of the Juneau community since 1987. The company is a strong supporter of educational and youth activities.*

## HOW THE FUND WORKS

The Coeur Alaska Kensington Mine's Juneau Schools Endowment is managed by the Juneau Community Foundation. The fund is intended to be maintained permanently, and the annual earnings will support K-12 extracurricular activities for Juneau's students.

Each academic year, earnings from the fund will be transferred to the Juneau School District. The District will review its school-sponsored activities and distribute the money to the areas of greatest need.

Establishing this endowment fund means that Coeur Alaska can continue supporting Juneau's students - even beyond its life of mine.

## WHAT THIS MEANS

Checks will no longer be issued by Coeur Alaska directly to the extracurricular activities. Instead, funds will be automatically transferred to the District to allocate to the teams, clubs, groups, or activities with the highest demonstrated need.

## WANT TO SUPPORT?

Visit the Juneau Community Foundation [website](#) to learn more or to donate.
